

Solutions for Home Care and Hospice

We know that your primary focus is to provide the best possible care for your patients. We also know that you're at the forefront of the battle to curb healthcare's enormous costs while maintaining the highest quality of care. The tools you need are **Supply Chain Solutions** that streamline care delivery and increase process efficiency, both of which are essential to successful businesses. Grove Medical invites you to partner with us...we have the cost-effective supply chain solutions that deliver!

Let us help simplify your business operations and drive automation to create efficiencies, reduce cost, and increase revenues and profitability by introducing you to **GroveConnect**, the solution that allows you to focus on what matters most, delivering the best possible care.

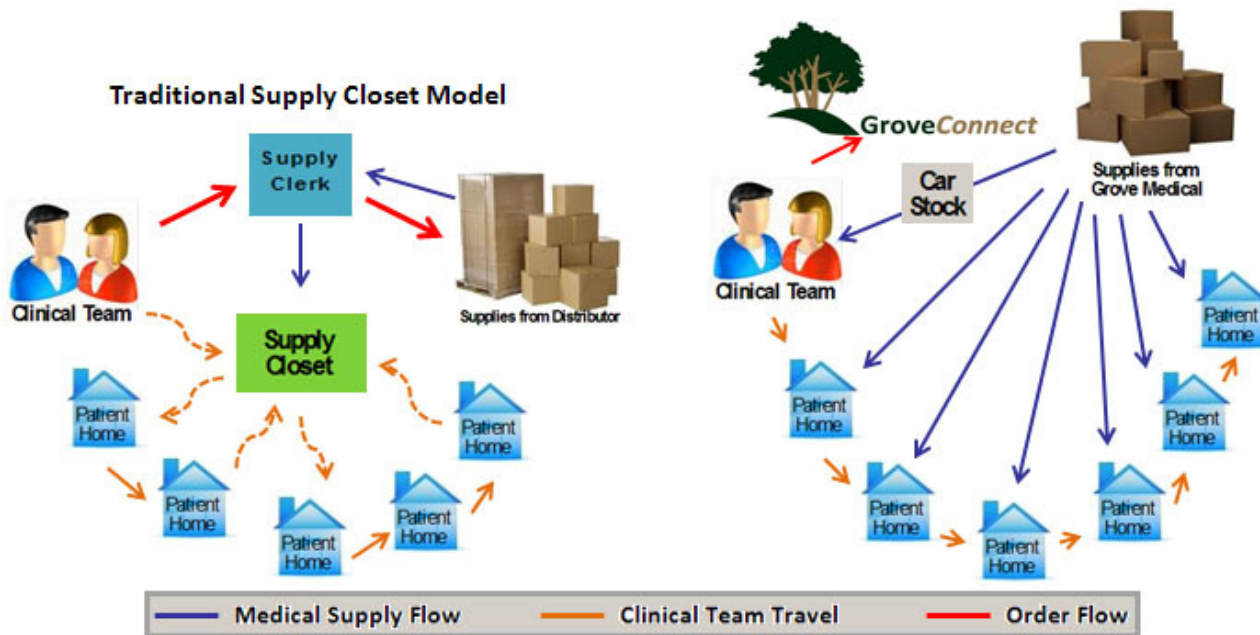

GroveConnect offers business solutions that will improve clinical quality of care and workflows, reduce cost, and improve operational control. It allows your clinicians to order from custom formularies, allowing them to view orders and history for each patient and it manages the clinician purchases by utilizing order business rules that meet Medicare billing requirements.

GroveConnect also allows all home care and hospice clinicians conducting visits in the home to order the medical supplies and equipment they need without ever having to go to the office, eliminating costly supply closets and wasteful travel.

We've also designed **GroveConnect** to have the ability to interface with home care and hospice billing software and we'll partner with you to research the connectivity options and customization requirements that may can be configured to fit your policies and procedures.

Solution Overview:

- Over 20 years of patient-direct expertise
- Clinicians quickly place orders keeping patient care on track
- Reduces car stock, eliminates closet inventory, avoids overstock
- Speeds home care claim reimbursement
- Allows focus on patient care, HIPAA compliant
- Operational efficiency and proven financial results
- Flexible supply solutions for your patients
- Order business rules for Medicare billing requirements
- Eliminates rekeying and data entry errors
- Reduces administrative tasks
- Improves workflow efficiencies and optimizes operations
- Reduces cost, increases revenues and profitability
