Covering all your healthcare needs.

TRACER is the Supply Management System for Grove Medical. It is the most versatile and easy-to-use system in the healthcare industry.

TRACER is designed to manage and maintain inventory for your medical supplies, and track supplies and charges by individual residents. Many facilities lose thousands of dollars each year in reimbursable charges. Supplies are often not available, and the information needed to make informed purchasing decisions is not always accurate.

Let Grove Medical show you how easy TRACER is to install and use. We can help save you money and ensure quality products are available for your patients.

Advantages of Tracer

- ▶ Trouble Free Setup
- ▶ Key fob scanning for resident charges
- ▶ Flexible Tracking and Charging
- ▶ Customizable billing export files
- ▶ Barcode compatibility
- ▶ Automated product & pricing updates
- ▶ Barcode label printing
- ▶ HIPAA compliant
- ▶ Inventory management control
- ▶ Formulary compliance
- ▶ Online ordering capability
- ▶ Multi-facility price change capability
- ▶ Online support
