

Ambu® ResCue Mask

Key Benefits

- Transparent dome allows rescuer to visually check for patient's lip color and vomitus
- Oxygen inlet (optional) facilitates increased oxygen delivery to patient
- Made of durable plastics for easy cleaning and long product life
- Available in hard case, soft case or plastic bag
- DEHP-free material

Ambu® ResCue Mask

The Ambu ResCue Mask is designed to provide mouth-to-mask ventilation.

As a physical barrier between the rescuer and the patient Ambu ResCue Mask is used to give protected rescue breathing for any patient (any age group) and may also be used with a resuscitator.

The Ambu ResCue Mask helps protect rescuers in an emergency situation. It prevents direct contact with patient's mouth, nose and face and helps to overcome hesitation to start resuscitation.
