

AirLife™ volumetric incentive spirometers

Our AirLife volumetric incentive spirometers simplify deep breathing therapy with an intuitive design that prompts patients to correctly perform and monitor their own breathing exercises, even without direct supervision. A patient goal indicator can be adjusted and allows patients to monitor their own progress. Dual-sided calibrations clearly identify achieved volumes of up to 4,000 mL capacity. The flexible tubing lets the patient adjust the mouthpiece for use in various positions, and a mouthpiece holder provides storage when not in use. Available with or without a one-way valve.

Cat. no.	Description	Qty.
2,500 mL capacity (pediatric version)		
001905A	Pediatric Volumetric Incentive Spirometer, 2500mL with One-Way Valve	12/cs
2,500 mL capacity		
001903A	Volumetric Incentive Spirometer, 2500mL with One-Way Valve	12/cs
001904A	Volumetric Incentive Spirometer, 2500mL	12/cs
4,000 mL capacity		
001901A	Volumetric Incentive Spirometer, 4000mL with One-Way Valve	12/cs
001902A	Volumetric Incentive Spirometer, 4000mL	12/cs

Volumetric incentive spirometer 4000 mL available with or without one-way valve

Volumetric incentive spirometer 2500 mL available with or without one-way valve

Volumetric incentive spirometer 2500 mL with one-way valve pediatric version

vPEP®

The vPEP® is a handheld OPEP device for lung expansion and promotes secretion clearance. vPEP creates oscillating positive expiratory pressure when the patient exhales through the device, helping to loosen and remove bronchial secretions associated with pulmonary emphysema, COPD, atelectasis, chronic bronchitis, bronchiectasis, cystic fibrosis, asthma, nonproductive cough, smoker's cough

Cat. no.	Description	Qty.
510	vPEP Oscillating Pos Pressure Device	10/CS
512	vPEP Oscillating Pos Pressure Device-HC	10/CS
