

Hand/Wrist Splints < **Contracture Management**

# Ongoing Care Products

Feature soft Kool-Wick™ washable covers that wick away moisture for a cooler, drier splint. The fabric is treated with Bacti-Ban™, which controls the growth of microorganisms. Each splint can be bent and shaped for a custom fit without heat or tools. An extra liner is included. Latex free.

**SoftPro Grip.** Supports wrist in desired position, and progressively treats finger and thumb contractures with included foam cylinders: 1½" and 2".

**SoftPro WHFO.** Supports the wrist, fingers and thumb. Easily bends to accommodate radial/ulnar deviation and wrist drop.

**DynaPro™ Orthotics.** Flexible static braces with dynamic properties. Bio-engineered to effectively treat neurocontractures. All DynaPro™ Hand Orthotics have a patented negative tension force that will "give" with episodes of abnormal tone to accommodate spastic episodes. Abnormal reflex arc therapy provided by the braces can reduce the intensity and duration of spasticity over time. DynaPro™ Orthotics are fit to gently "flex" into contractures to reverse lost range of motion.

**DynaPro Flex Hand Splint.** Neuro-Dynamic Therapy for a tisted hand and moderate to severe wrist contractures. Reverses moderate/severe flexion and/or spasticity of wrist/hand/fingers. Provides neuro-rehabilitation while the patient wears the device. Two incrementally larger palmar rolls included to gradually open the hand. Heat moldable. Provides gentle ulnar drift correction.
