FOR THE DIETARY MANAGEMENT OF PROTEIN DEFICIENCY

ProSource® Plus Liquid Protein is specifically formulated to provide the nutrients for the dietary management of protein-energy malnutrition and increased protein needs.¹²

- Oncology
- Gastric bypass/bariatric patients
- Fluid-restricted diet
- Renal failure
- Protein-energy malnutrition
- HIV/AIDS
- Increased protein need
- Clear liquid diet

Dosing and Administration

Oral: Use ProSource Plus Liquid Protein as a med pass directly from the bottle (pack) or add it to all types of beverages, soups, hot and cold foods, and purees. Saves nursing time, storage space, waste and kitchen labor. Unlike powdered protein supplements, it mixes easily into all liquids and moist foods.

Tube Feeding: Dilute with 30 mL of water. Infuse via syringe down feeding tube. Flush with 15-30 mL of water before and after administration.

Appropriate for NG-tube, G-tube and J-tube.

Ingredients (Neutral Flavor): Protein from Collagen Hydrolysate and Whey Isolate, Purified Water, Sucrose, Phosphoric Acid, Tartaric Acid, Natural Flavors, L-Tryptophan, Sodium Phosphate, Potassium Sorbate and Sodium Benzoate (preservatives). **Contains Milk.**

Ingredients and Nutrition Facts for ProSource Plus Item 11661/11664 (Berry Punch) and Item 11671/11674 (Orange Crème) flavors can be found on page 65.
