

SpeediCath® Soft

SpeediCath® Soft is designed to make catheterization simple and easy with fast preparation and a confident grip.

- Pre-lubricated intermittent catheter that is instantly ready to use with a unique hydrophilic coating, eliminating the need for additional lubricants or waiting for a catheter to hydrate.
- Insertion grip made from a soft, flexible material designed to ensure a confident and hygienic grip of the catheter, without touching the tube or tip.
- Soft catheter that is easy to use the first time and every time
- **Not made with natural rubber latex and is DEHP and phthalate free.**

SpeediCath® Soft

SpeediCath Soft straight tip intermittent catheter.

Code	Size	Units	Description	HCPCS*
27010	● 10 FR	30	13" length	A4351
27012	○ 12 FR	30	13" length	A4351
27014	● 14 FR	30	13" length	A4351

SpeediCath® Compact Female and Compact Plus

The most compact, ready-to-use hydrophilic-coated intermittent catheters for women.

SpeediCath Compact Female and Compact Plus offer the benefits of our ready-to-use hydrophilic-coated intermittent catheters in a small, discreet package. Designed for women, the length of SpeediCath Compact Female matches the length of the female urethra, and when unopened it is no longer than a tube of lipstick. **This catheter is not made with natural rubber latex and is DEHP and phthalate free.**

SpeediCath® Compact Female

SpeediCath Compact straight tip intermittent catheter.
