## Marking pens

Skin markers are used in all surgeries to mark incision sites. Utility markers are used for labels, bowls/basins or other plastics/paper.

### Surgical marking pens, traditional

- Gentian or crystal violet ink
- Nontoxic, nonsmear and nonirritating
- Regular, fine or tapered tip styles available
  - Convex cone shape of tapered tip marking pens allows user to control and vary the width of markings
- Available with a flexible ruler and/or labels
- Not made with natural rubber latex
- Single use
- Available single sterile and bulk nonsterile
