■ Simulate everyday activities

Puttycise® Tools can be pushed, pulled, or turned through putty to produce specified exercises. Changing the putty resistance increases or decreases difficulty level. Use to simulate functional activity and/or teach joint protection techniques. Consists of five tools that all function by inserting tool base into resistive putty. Tools include **Knob Turn**, **Peg Turn**, **Key Turn**, **Cap Turn**, and **L-Bar** (simulates pulling a vacuum, sweeping, using a hammer, etc.). Tools work best in 1 lb. of putty. **5-Piece Set** includes one of each tool with a carry bag and set of instruction cards. Putty not included.

#2970000935	5-PIECE SET w/CARDS AND BAG	SET
