

Magic³[®]

HYDROPHILIC INTERMITTENT CATHETER

- Packaged with its own sterile water packet, immediate hydration creates virtually friction-free surface¹
- Ultra-soft outer layer designed to help maximize comfort, firm middle layer for easy handling, and pliable innermost layer for easy navigation¹
- Available with SURE-GRIP™ insertion sleeve, designed to ease handling and eliminate the need to touch the catheter surface²
- Comfort-designed tapered tip with four comfort-sized drainage eyes¹
- Not made with natural rubber latex
- Phthalate-free, eliminating the risk of health concerns with phthalate plasticizers¹
- PVC-free, eliminating concerns on the disposal of intermittent catheters¹
