

Resting Hand Splints

■ **Figure-eight strap configuration**

Progressive™ Resting Splints Rigid enough for splinting, yet easy to adjust without tools. Shipped as a standard neutral functional resting splint—you bend it in the right areas for a custom fit. Figure-eight strap configuration. Soft, washable AliFleece™ polyester cover has all necessary straps sewn on. Under the removable cover, splint features a perforated Plastazote® #1 resting surface and hook-sensitive underside exterior layer that allows splint to be used with or without a cover.

Sizing: Measure circumference of the hand at MP joints. *Small/Medium, 6½"-8"; Medium/Large, 8"-9½".*

SIZE	LEFT	RIGHT	QTY
SMALL/MEDIUM	#2970001983	#2970001985	EACH
MEDIUM/LARGE	#2970001982	#2970001984	EACH

Perforated Plastazote® surface

■ **Five straps for positioning and control**

Resting Hand Orthoses support weak or deformed hands with five strap closures for hand, wrist, fingers, and thumb with thumb placed in abduction. Removable finger separator included. Adjustable metal frame bends to fit without heat or additional tools. Soft, removable, machine-washable Headliner cover is antimicrobial. Navy.

Sizing: Measure wrist to tip of middle finger. *Adult Small, 5¼"-6¼", 10½"L; Adult, 6¼"-7¼", 11½"L; Adult Large, 7¼"-8, 13½"L.*

SIZE	LEFT	RIGHT	QTY
ADULT SMALL	#2970003119	#2970003118	EACH
ADULT	#2970003115	#2970003114	EACH
ADULT LARGE	#2970003117	#2970003116	EACH

California Proposition 65 Statement

■ **WARNING:** This product can expose you to chemicals including Di(2-Ethylhexyl) Phthalate (DEHP), which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to <https://www.p65warnings.ca.gov>.

■ **Medial/lateral thumb support with individualized thumb strapping**

Progressive Resting Hand Orthoses provide progressive static positioning for weak or deformed hands. Side wings prevent ulnar/radial deviation. Five strap closures for hand, wrist, fingers, and comfortable thumb placement in separate enclosure. Gentle medial or lateral thumb support with individualized thumb strapping allows for a more traditional "C" formation form. Removable finger separator included. Adjustable metal frame bends to fit without heat or additional tools. Soft, removable, machine-washable Headliner cover is antimicrobial. Navy.

Sizing: Measure wrist to tip of middle finger. *Adult Small, 6"-7", 11"L; Adult, 7"-8", 12½"L.*

Color-coded straps

Optional Finger Separator

■ **Color-coded straps for easy application**

SoftPro™ Functional Resting Hand Splints treat moderate flexion contractures of wrist/hand/thumb. Bend-to-fit construction allows easy modification without heat or tools, even at the difficult-to-fit thumb. Adjustable for ulnar/radial deviation. Extra-long wrist strap maintains proper position while applying gentle stretch. Color-coded straps for easy application and staff training. Antibacterial cover helps reduce odor. Extra cover included. **Finger Separator** sold separately, below.

Sizing: Measure width of MP joints and length from wrist to fingertip. See chart below.

SIZE	LEFT	RIGHT	QTY
SMALL	#2970002688	#2970002687	EACH
