

THE PURACYN[®] PLUS PROFESSIONAL FORMULA FAMILY OF PRODUCTS

The Puracyn[®] Plus Professional Formula Family of Products is a synergistic wound care management system based on an innovative and powerful science that provides a new strategy for wound care protocols.

WOUND IRRIGATION SOLUTION

Puracyn[®] Plus Professional Formula Wound Irrigation Solution is a next-generation wound irrigation and management solution designed to improve the most essential part of the wound treatment process: preparation of the wound bed. Available in a variety of sizes and applicators, including an Instill Application, for adjunctive therapies.

Puracyn[®] Plus Professional Formula Wound Irrigation Solution is FDA-cleared for use by healthcare professionals in the cleansing, irrigating, moistening, and debridement of the following types of wounds:

- Acute and dermal wounds
- Partial and full-thickness wounds
- First and second-degree burns
- Diabetic and stasis ulcers
- Stage I-IV pressure injuries
- Post-surgical wounds
- Grafted and donor sites
- Abrasions and minor skin irritations

WOUND IRRIGATION SOLUTION BENEFITS

- Non-toxic and non-irritating
- Contains no steroids or antibiotics
- Contains no alcohol or iodine
- Requires no mixing or diluting
- Supports reduction of wound odor
- Irrigates the wound bed without harming healthy tissue
- Environmentally friendly—no special disposal required
- Up to 24-month shelf life

ANTIMICROBIAL HYDROGEL

Puracyn[®] Plus Professional Formula Antimicrobial Hydrogel is designed to add and maintain moisture in the wound bed. A moist wound and skin environment facilitates autolytic debridement and is beneficial to wound management and the wound healing process. Antimicrobial Hydrogel has an expansive safety profile, won't harm healthy tissues, and works in tandem with our Wound Irrigation Solution to deliver a powerful combination for wound care.

Puracyn Plus Professional Formula Antimicrobial Hydrogel is an FDA-cleared 510(k) product for use by healthcare professionals to treat the following types of wounds:

- Acute and dermal wounds
- Partial and full-thickness wounds
- First and second-degree burns
- Diabetic and stasis ulcers
- Stage I-IV pressure injuries
- Surgical wounds (incisions, donor and graft sites)
- Abrasions and skin irritations
- Trauma wounds
- Various dermatoses including atopic dermatitis

ANTIMICROBIAL HYDROGEL BENEFITS

- Non-toxic and non-irritating
- Contains no steroids or antibiotics
- Contains no alcohol or iodine
- Supports reduction of wound odor
- Adds moisture to dry wound beds
- Relieves itching and pain associated with dermal irritations
- Moistens and lubricates absorbent wound dressings
- Environmentally friendly—no special disposal required
