781039	Universal 20" Sheepskin Cushion Cover - Fits 3"-4"H	20"W x 16"D x 3"-4"H	Ea.

Purpose

Sitting directly on vinyl often contributes to added moisture, higher temperature and increased shear forces, all which contribute to the formation of pressure sores. Due to space considerations, it is difficult to stock covers specific to each cushion so these universal covers are introduced to minimize stocking of multiple covers. They are manufactured from a launderable fabrics that allow them to fit a wide selection of cushions.

Available Fabrics

The two most universal fabrics available in the universal cushion selection are synthetic sheepskin and low shear II. The synthetic sheepskin covers are launderable and offer a cooling, moisture absorbing effect and adds softeners to any cushion. There is also stretch in the fabric to minimize shear forces. The low shear II fabric is wipe clean and offers maximum stretch to further minimize shear forces.

Cover Attributes

1. Stretch fabrics accommodate a wide range of flat or wedged cushions
2. Non-slip bottom
3. Easy application safety straps
4. Launderable (sheepskin or wipe clean (LSII))
5. Stretch fabrics minimizes shear forces.

Manufactured by: Skil-Care Corporation • Made in the U.S.A
