

Algicell® Calcium Alginate Dressings and Rope

These soft, white, sterile dressings absorb moderate to large amounts of wound drainage and may help control minor bleeding. Alginate ropes can be used to fill or pack a wound. **Algicell Calcium Alginate Dressings** are designed to keep their form, allowing for easy and trauma-free removal, while maintaining a moist wound environment through its ability to gel upon contact with wound fluids.

- Long-lasting, seven-day effectiveness
- Absorbs more drainage than market leader
- Does not contain natural rubber latex

Algicell® Ag (Silver) Dressings and Rope

Algicell Ag (Silver) Dressings contain 1-4% ionic silver and provide a long-lasting, measured release for seven-day effectiveness. **Algicell Ag (Silver) Dressings** absorb 16-32% more drainage than the market leader, reducing maceration risk. The dressings are effective against a broad range of bacteria, and the gelling capability ensures that the dressing does not stick or leave fibrous residue in the wound bed.

- Contains ionic silver
- Long-lasting, seven-day effectiveness
- Absorbs more drainage than market leader
