

Non-Hazardous Pharmaceutical Waste Containers

- For the disposal of non-hazardous pharmaceutical waste
- White and blue color easily distinguished from sharps, chemotherapy and other disposal containers
- Leak-resistant gasket and absorbent pad help contain liquid contents
- Tamper-evident label helps deter tampering during final disposal
- Sturdy, rigid polypropylene construction provides excellent impact and leak resistance (unlike cardboard or fiber) to contain heavy vials, IV bags and more
- Two-gallon, three-gallon and eight-gallon capacity sizes are suitable for multiple locations — nursing units, med carts, anesthesia, pharmacies, etc.
- Secure, hinged lid with temporary and final closure accepts larger, bulkier waste; closes temporarily between uses; locks for final disposal
- Nestable containers save valuable storage space
- Locking wall-mounting brackets and floor carts available allow for point-of-use placement and one-handed disposal; increases mobility, stability and security
