GENERAL DESCRIPTION

Trusted by doctors, speech-language pathologists, and dietitians since 1987, Thick-It® brings you Clear Advantage® Beverages, an entire line of ready-to-drink, thickened beverages for those with swallowing difficulties. Clear Advantage® Beverages are made with Artesian mineral water from 600 feet below ground, which results in thickened beverages that look and taste natural. Rather than the honey or nectar consistencies you're used to seeing on packages or mixing directions for Thick-It® products, you'll soon be seeing terms like mildly thick, moderately thick, or extremely thick. It's all part of the International Dysphagia Diet Standardisation Initiative (IDDSI), a global movement to standardize definitions for the various consistencies and textures in modified beverages and foods. Clear Advantage® Beverages offers those with dysphagia a variety of enjoyable beverage options while allowing caregivers to confidently give their loved ones the nutritional care they need and deserve.
