

AirLife™ prefilled humidifier systems

Compact prefilled humidifier with adapter 002620

Filled with Sterile Water for Inhalation, USP, these humidifier systems feature a dual-purpose reservoir with a snap-open trigger, which makes a round opening for secure attachment of a humidifier adapter (available with Humidifier Systems 002620 and AL2702, and also separately). The oxygen pathway is designed to help prevent particulate from reaching oxygen delivery tubing. An audible relief valve warns if the patient's tubing becomes occluded.

Designed for convenient shelf storage, **Compact Humidifier 002620** has a multiangle outlet port that prevents spitting, even at high flow rates, and a small bottle opening that prevents refilling. It includes an adapter and a 4 psi pressure-relief valve with alarm.

Cat. no.	Description	Qty.
002620	With humidifier adapter, 500 mL	12/cs

AirLife prefilled nebulizer kits

Our prefilled nebulizers provide performance and ease of use. You can obtain heated and cool high-output aerosols adjustable from 28% to 100% FiO₂. We offer a wide selection of solutions: Sterile Water for Inhalation, USP; 0.45% Sodium Chloride for Inhalation, USP; and 0.9% sodium chloride for inhalation, USP.

Cat. no.	Description	Qty.
Prefilled nebulizer kits packaged with adapter		
CK0005	500 mL Sterile Water for Inhalation, USP	12/cs
CK0010	1000 mL Sterile Water for Inhalation, USP	12/cs
CK4505	500 mL 0.45% Sodium Chloride for Inhalation, USP	12/cs
CK4510	1000 mL 0.45% Sodium Chloride for Inhalation, USP	12/cs
Nebulizer replacement water		
CN0005	500 mL Sterile Water for Inhalation, USP	18/cs
CN4505	500 mL 0.45% Sodium Chloride for Inhalation, USP	18/cs
CN4510	1000 mL 0.45% Sodium Chloride for Inhalation, USP	12/cs
CC05	Nebulizer adapter for 500 mL container	24/cs
CC10	Nebulizer adapter for 1000 mL container	24/cs

AirLife empty humidifiers

Empty humidifiers left 002003, right 002006

Transparent for maximum clarity, our latex-free AirLife empty humidifiers provide an economical alternative to prefilled humidifiers. These 370 mL capacity units have an audible-alarm pressure-relief valve to warn patient and caregivers of obstructions to flow. Available with either a 3 or 6 psi pressure-relief valve. The 6 psi model is designed for applications where longer lengths of tubing can increase back pressure. With both the jar and lid constructed of break-resistant plastic, humidifiers also feature an ergonomically designed, durable plastic flowmeter nut.

Cat. no.	Description	Qty.
002003	370 mL capacity, with 3 psi valve (white cap)	50/cs
002006	370 mL capacity, with 6 psi valve (blue cap)	50/cs
