 Ingestion: None expected, not an expected route of exposure. Get medical attention.

6. Safety Testing

Cytotoxicity test acc to ISO 10993-5 Passed
 The following Safety Data performed on Mepilex is valid also for Mepilex Transfer, since same raw material quality and coating design are used.
 Intracutaneous Test acc to ISO 10993-10 Passed
 Cumulative Skin Irritation acc to ISO 10993-10 Passed
 Systemic Injection Test acc to ISO 10993-11 Passed
 Delayed Contact Hypersensitivity test acc to ISO 10993-10 Passed
 Genotoxicity (Namsa, methodology of Ames) Passed
 Four week Systemic toxicity study following subcutaneous implantation (Namsa) Passed

7. Fire and Explosion Hazard Data

Flash Point:	Not applicable.
Extinguishing Media:	Whatever is appropriate for surrounding fire.
Personal Protective Equipment:	Whatever is appropriate for surrounding fire.
Special Instructions:	None known

8. Reactivity Data

Stability:	Stable
Incompatibility (materials to avoid):	None known.
Hazardous Decomposition or By-products:	None known
Hazardous Polymerization:	Will not occur

9. Precautions for Safe Handling and Use

Handling/Storage:	Should store in dry conditions below 95 degrees F (35 degrees C).
Sterility:	Sterility is guaranteed unless inner package is damaged or opened prior to use. Do not resterilize.
Precautions:	In case of clinical signs of infection the use of Mepilex Transfer may be continued if proper infection treatment is initiated. If exposed to direct sunlight, Mepilex Transfer may discolour, although this will not adversely affect the dressing. On infected wounds the dressing should be changed at least daily until infection is controlled.
Contraindications:	None known.

10. Ecological information

No known ecological hazards associated with this product.

11. Disposal considerations

Dispose in accordance to federal, state, and local regulations.
