

OxyMask™ ETCO₂

Safer care for an exceptional experience

Introducing OxyMask ETCO₂—a unique open-style oxygen mask by Southmedic. Its proprietary design allows a single mask to provide a broad range of oxygen concentrations and accurate end-tidal CO₂ monitoring.

Improve operational efficiencies

One mask for all patients from the operating room to recovery.

- Available with full male gas sampling line or pigtail to accommodate facility needs
- Open design allows for oral and nasal access
- Broad FiO₂ range (24%–65%) eliminates the need for many traditional oxygen masks
- Save caregiver time and reduce errors by reducing number of device changeouts
- Safer, more efficient oxygen delivery allows for easier patient weaning for quicker recovery

Improve patient experience

Lightweight, open-mask design.

- Reduces claustrophobic feelings
- Unrestricted communication with caregiver and family
- Provides easy access for fluids and oral medication delivery
