

Premium Underpads

Product featured:
WINGS™ Quilted Premium Comfort Underpad

TRUBREZ™ Premium Underpad
Intentionally designed to promote air permeability*

We developed the TRUBREZ™ Premium Underpad specifically with high-risk skin in mind. A deliberate mix of strength, softness and breathability, TRUBREZ™ enables air movement and helps protect skin health by supporting critical hygiene needs.

Enhanced performance

Ideal for patients with high-risk skin, such as those in the ICU or burn unit and those with rashes, pressure injuries or other skin issues.

Superior breathability

Innovative design and high-quality materials enable a cool, dry skin microclimate.

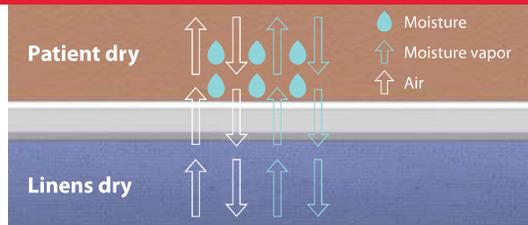

Reliable strength

Suitable for lifting and repositioning patients up to 350 lbs.

Breathability is essential to healing

When skin flora is out of balance due to excessive heat and moisture, it can lead to serious skin problems and make it harder to treat wounds. By using products designed for maximum breathability, you can help provide a cool, dry, and comfortable microclimate that helps promote optimal skin health.

WINGS™ Quilted Premium Comfort Underpad

300 lb. strength claim

- Premium backsheet assists in the lift and repositioning of patients up to 300 pounds, which helps reduce the need for drawsheets and reusable underpads
- Super-absorbent core is designed to quickly lock in fluid and neutralize unpleasant odors
- Moisture vapor permeable film allows moisture vapor (gas) to transfer away from the patient while protecting bed linens/clothing from bodily fluids, leaving the patient drier and more comfortable

Item No.	Description	Size	Absorbent core	Color	Qty	Case Ct
