

Tranquility Topliner Booster Pad

Thin design allows for placement in target areas where additional absorption is needed.

Description

TopLiner Booster Pads are designed as flow-through pads that fill to capacity then pass additional fluid to the primary undergarment – economically extending the use of any disposable brief or undergarment. They improve wearing comfort by ending leakage, rashes, and nighttime changes. Easy to change and dispose. Latex-free.

The Super Booster Pad is longer and more absorbent to contain full void episodes. The Mini Booster Pad is designed for use with personal care pads and youth sizes. All Booster Pads have an adhesive strip so that they can be secured on the target area where extra absorbency is needed.

Absorbency: 14.2 oz/420 mL

Product fluid capacity represented by standard 8-ounce measuring cup.

Size:

Item # 2060 — **SUPER** — 15" X 4.25"

Item # 2070 — **REGULAR** — 14" X 4"

Item # 2072 — **MINI** — 10.5" X 2.75"

Product Features

PMG – Peach Mat Guarantee®

The promise of unsurpassed overall performance in the areas of skin dryness, odor reduction, urine pH neutralization and inhibition of bacterial growth.

CL – Cloth-Like Backsheet

Product outer layer is soft and rustle free.

AS – Adhesive Strip

Secures product in place.

LF – Latex-Free

Booster Pads are made of absorbent material **without** a moisture-proof outer-layer. These **flow-through** pads are designed to fill to capacity and then allow additional fluid to pass into the host garment, economically extending the use of the primary garment and making it convenient for the end-user to change the booster pad but not the host garment. When worn inside a host garment (disposable brief or disposable underwear) booster pads can help end leaking, rashes, and nighttime changes.

Tranquility Topliner Booster Pad

Thin design allows for placement in target areas where additional absorption is needed.
