Cure Ultra® and Cure Ultra® *Plus*™

The sterile, single-use Cure Ultra line of pre-lubricated, ready-to-use catheters has expanded to include an 8" length for women – the Cure Ultra *Plus*. This conveniently portable product family offers many beneficial features:

- Smooth, fire polished eyelets are designed for comfort and to help reduce irritation that can lead to infection.
- The flexible, attractive packaging and kink-resistant catheter help enable discreet portability – even in small spaces.
- The unique, ergonomic funnel shape offers a 'No Roll' benefit and helps enable controlled handling.
- To help ensure comfortable use, a CoverAll™ feature provides even distribution of gel lubricant over the catheter as it is removed from the package – for ready-to-use convenience.
- Use of minimum product and packaging material means less waste and a more eco-conscious choice compared to many other options.
