

eTracer

Is a versatile and easy to use web-based Supply Management system that is designed to help manage and maintain inventory for medical supplies, track supplies and charges by individual residents or by a location.

Eliminate waste by tracking expiration dates, serial and lot numbers on pharmaceuticals and other expensive products.

Integrate with your internal accounting system to seamlessly transfer billing information.

Advantages of eTracer

- Customizable Billing Exports
- Automated Product and Pricing Updates
- HIPAA Compliant
- Inventory Management Control
- Formulary Compliance
- Multi-facility Reporting Capabilities
- Robust Budgeting Tool
- Order Rules Engine
- View and Copy Previous Orders
- Track and report supplies usage by resident and patient
- Enter usage by easy to use touchscreen interface
- Report usage by resident/patient
- Track inventory by serial number, lot number, and expiration date
