Covering all your healthcare needs.

Grove Medical's Supplies Management System, Tracer, is the most versatile and easy to use system in the healthcare industry. Tracer is designed to manage and maintain inventory for your medical supplies, and track supplies and charges by individual residents. Many facilities lose thousands of dollars each year in lost charges. Needed supplies are often not available, and the information needed to make informed purchasing decisions is not always accurate.

Advantages of Using Tracer

- ▶ Easy installation
- ▶ Key fob scanning for resident charges
- ▶ Efficient charging of supplies to residents
- ▶ Customizable export files
- ▶ Barcode compatibility
- ▶ Automated product and pricing updates
- ▶ Barcode label printing
- ▶ HIPAA compliance
- ▶ Inventory management control
- ▶ Formulary compliance
- ▶ Online ordering capability
- ▶ Multi-facility price change capability
- ▶ Send company messages
- ▶ Online support
