

Hydrofilm®

Self-adhesive film dressing

Features

- Skin friendly
- Easy application while wearing gloves
- Rounded corners reduce potential roll-up and extend wear time
- Highly breathable film reduces maceration risk
- Extremely thin 25-micron film provides high-wearing comfort
- Waterproof
- Sterile

Uses

- Precaution: Should not be used as a primary dressing on clinically infected, bleeding or heavily secreting wounds
- Serves as a secondary dressing
- Protects against physical damage for dry primary wounds and nearly healed epithelial wounds
- Secures Catheters or cannulas
- Reduces the risks for secondary infection
- Used for sterile post-operative care of slightly exuding wounds

Hydrofilm®
