

# Proximel®

**Unique five-layer design helps reduce complications,  
enhance patient comfort and promote optimal wound care and healing.**

## Features

- Gentle on patients' skin to reduce irritation and pain, enabling the dressing to be changed without stripping epidermal cells
- Can be lifted or repositioned without leakage or loosening
- Small perforations in the absorptive pad reduce risks of in-growth
- Minimizes maceration
- Evenly distributes fluid across dressing
- Waterproof barrier seals out bacteria

## Uses

- |                       |                      |                         |
|-----------------------|----------------------|-------------------------|
