

SECURA[◇] Extra Protective Cream (EPC)

Skin Protectant

Description

SECURA Extra Protective Cream (EPC) Skin Protectant

Features & Benefits

- Contains 30% Zinc Oxide
- Can be used on denuded skin
- Provides a high level of protection for patients with severe diarrhea
- Will not wash away after repeated exposure to urine and feces
- Contains karaya to absorb moisture and adhere to weepy, macerated skin
- Soothing
- Non-sensitizing
- Contains Vitamin E
- Pediatrician tested

Indications

Skin protectant that helps treat and prevent rash associated with diaper use or continued exposure to feces, urine or both. Protects skin from minor irritation associated with diaper dermatitis and exposure to feces and urine and helps seal out wetness.

Warnings

For external use only. Avoid contact with eyes. Not to be applied over deep or puncture wounds, infections or lacerations. If condition worsens or does not improve within 7 days, consult a doctor. Keep out of the reach of children. If swallowed, get medical help or contact a Poison Control Center immediately.

Ordering Codes / Reimbursement Information

Specific Coverage Policy: Supplies used in the management of incontinence, including creams, salves, lotions, barriers (liquid, spray, wipes, powder, paste) or other skin care products are non-covered by the DMERC.

- **Instructions for Use**

Step 1

Change wet and soiled diapers, garments and linens promptly.

Step 2

Cleanse the affected area and allow to dry.

Step 3

Apply cream liberally as often as necessary with each diaper change; especially at bedtime or anytime when exposure to soiled diapers, garments, linens, feces or urine may be prolonged.
