

Select Booster Pad

A soft, flow-through pad designed to fill to capacity and then pass additional fluid into the primary garment.

Product Description:

Booster Pads are made of absorbent material **without** a moisture-proof outer-layer. These **flow-through** pads are designed to fill to capacity and then allow additional fluid to pass into the host garment, economically extending the use of the primary garment and making it convenient for the end-user to change the booster pad but not the host garment. When worn inside a host garment (disposable brief or disposable underwear) booster pads can help end leaking, rashes, and nighttime changes. Latex-free.

Sizes:

Item ID #2770 — SMALL BOOSTER—12” x 3.25”

Absorbency: 5.5 oz/163 mL

Item ID # 2760 — MEDIUM BOOSTER—12” x 4.25”

Absorbency: 6.7 oz/198 mL

Product fluid capacity represented by standard 8-ounce measuring cup.
